01

We think and realize customized and efficient solutions for the climatic Wellbeing.

## WE IMPROVE PEOPLE'S LIVES

With MORE, you have a single point of contact for your home climate wellbeing: technologically advanced, customized, and efficient solutions to ensure maximum comfort while minimizing noise and avoiding air drafts. We transform your home into the ideal place to live.

Are you renovating or building a house?  
Visit our experiential showrooms to experience our solutions firsthand.

# MORE PAD HV1

Innovative kit for heating integration and bathrobe warmer radiant, electric and invisible with plasterboard finish.

The kit consists of:

- self-supporting insulation panel
- MORE PAD HV 230V technology pre-wired
- Plasterboard finish

Application:

- integrated
- relief

MORE PAD HV1 RELIEF APPLICATION ON EXISTING STRUCTURE WITH PLASTER FINISH

02

MORE PAD HV1 INTEGRATED APPLICATION ON PLASTERBOARD STRUCTURE WITH RESIN FINISH

6

**BASE LAYER**  
 Integrated application: on double plasterboard structure.  
 Relief application: on any type of structure.

**FINISH**  
 SUITABLE FOR ANY TYPE OF FINISH (PLASTER, PAINT, CLAY, RESIN, CERAMIC, STONE, MARBLE, AND WOOD).

- DIMENSIONS**
- 1600 X 300 MM 1 HV PAD STRIP (90 W/M)
  - 1600 X 600 MM 2 HV PAD STRIPS (180 W/M)

7

# MORE PAD HV2

Innovative kit for heating integration and bathrobe warmer radiant, electric and invisible with reinforcement mesh.

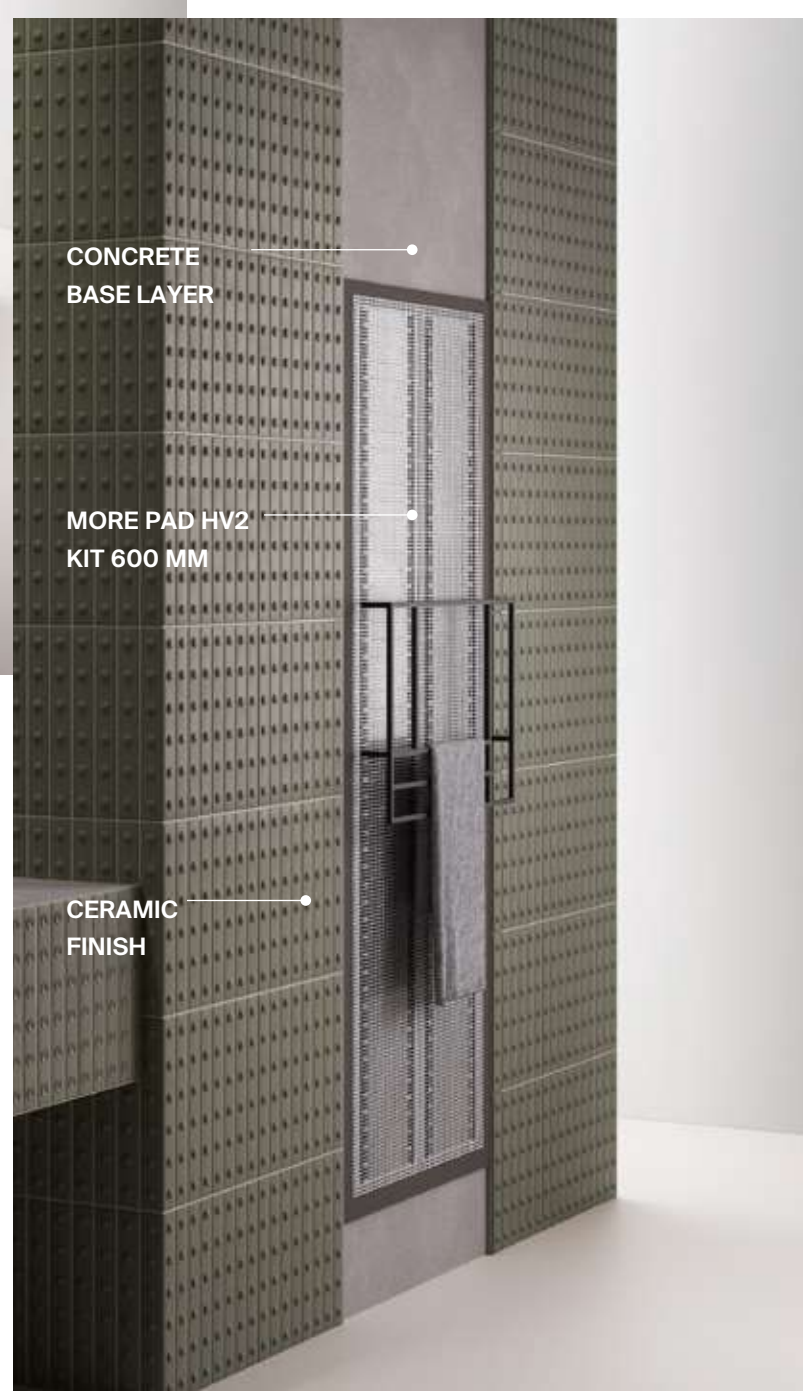

- The kit consists of:
- self-supporting insulation panel
  - MORE PAD HV 230V technology pre-wired
  - Reinforcement mesh

- Application:
- integrated

MORE PAD HV2  
TEMPERATURE  
44°C

MONDRIAN MINI

MORE PAD HV2  
KIT 600 MM

CERAMIC  
FINISH

MORE PAD HV2 INTEGRATED APPLICATION ON CONCRETE STRUCTURE WITH CERAMIC FINISH

**BASE LAYER**  
Integrated application on masonry or plasterboard sheet.

**FINISH**  
SUITABLE FOR FINISHES WITH PLASTER, CERAMIC, STONE, MARBLE, AND WOOD.

- DIMENSIONS**
- 1600 X 300 MM 1 HV PAD STRIP (90 W/M)
  - 1600 X 600 MM 2 HV PAD STRIPS (180 W/M)

# MORE PAD HV3

Innovative kit for heating integration and bathrobe warmer radiant, electric, invisible and flexible for non-ordinary structures.

- Kit Components:
- MORE PAD HV 230V pre-wired technology
  - Reinforcement mesh

- Application:
- Integrated

MORE PAD HV3

MORE PAD HV3  
KIT 1600 X 340 MM  
(2 STRIPES)

MORE PAD HV3 INTEGRATED APPLICATION ON CONCRETE STRUCTURE WITH STONE FINISH

**BASE LAYER**  
Application: on any type of non-ordinary and pre insulated structure.

**FINISH**  
SUITABLE FOR FINISHES WITH: PLASTER, CERAMIC, STONEWARE, STONE, MARBLE AND WOOD.

- DIMENSIONS**
- 1600 X 340 MM X 2 STRIPES PAD HV (90 W/M + 90 W/M)

MORE PAD LV  
TEMPERATURE  
40°C

# MORE PAD LV

Innovative kit for shower box and calidarium areas heating radiant, electric and invisible.

Kit Components:

- MORE PAD LV 36V flexible and pre-wired technology
- Reinforcement mesh

MORE PAD LV can be internally shaped without interrupting the side electrical conductors, to adapt to any surface in case of interference, such as hydraulic or electrical elements.

MORE PAD LV INSTALLED IN THE SHOWER BOX

## BASE LAYER

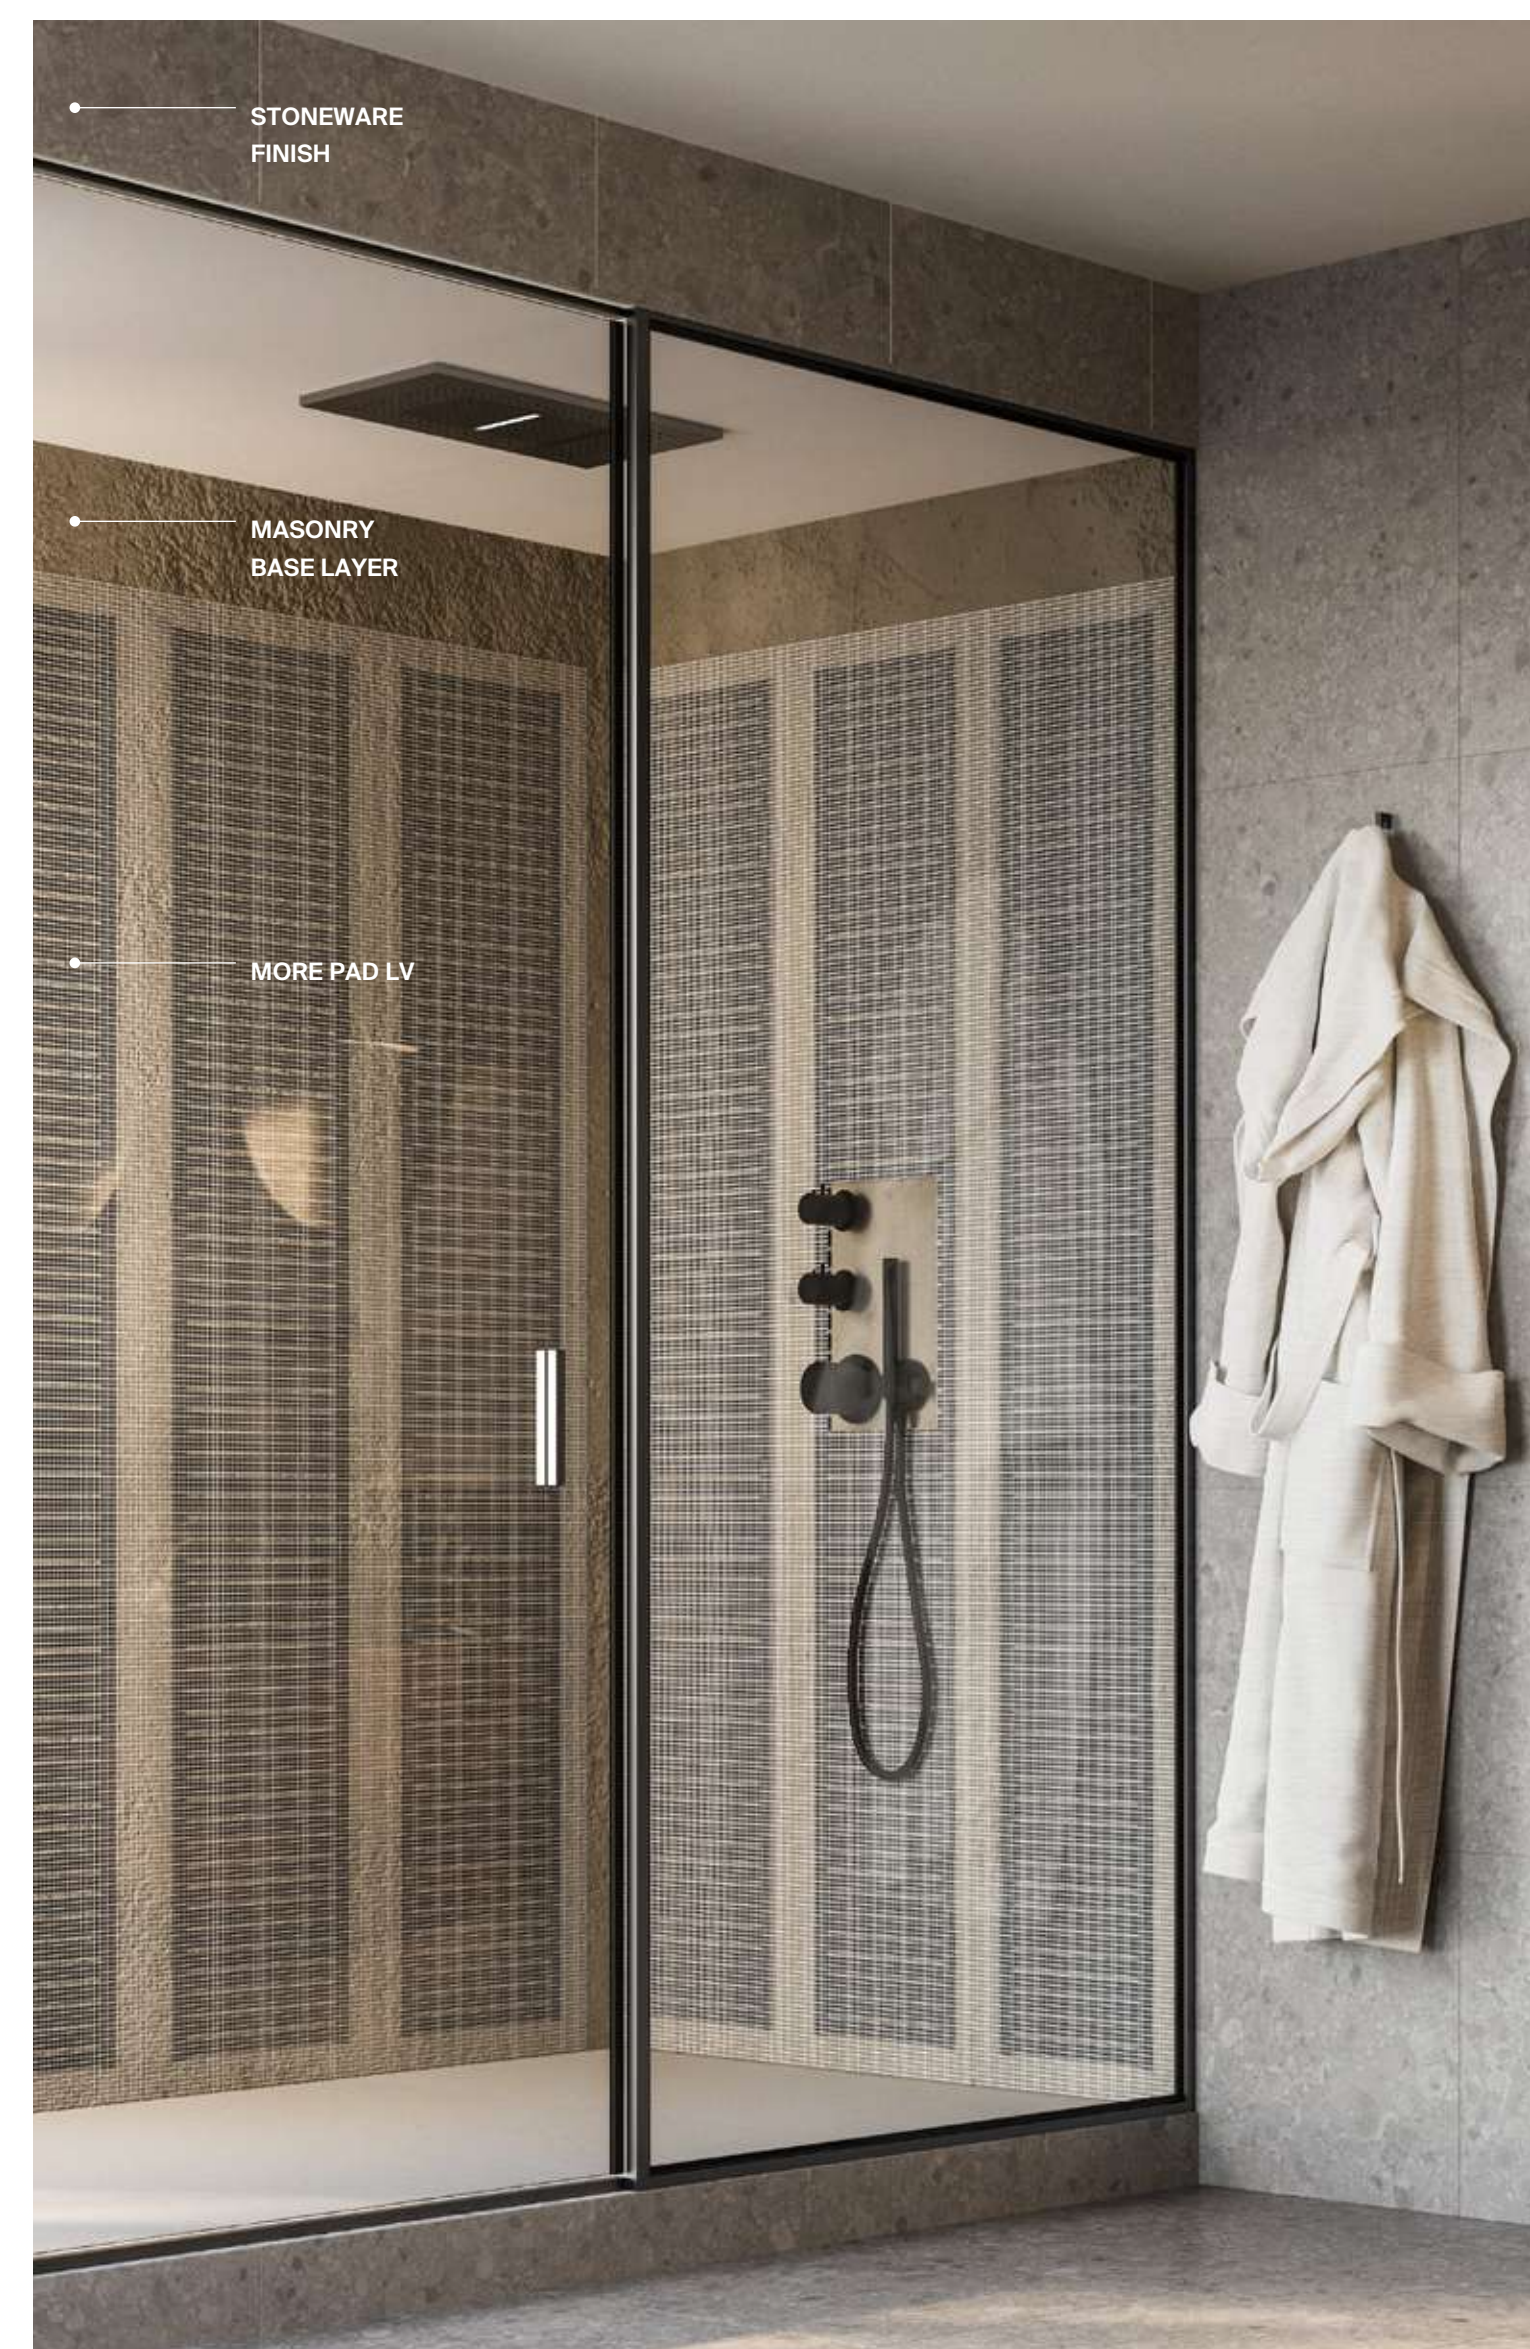

Application: on masonry and plasterboard structures, already thermally insulated and architecturally non-linear.

## FINISH

SUITABLE FOR FINISHES WITH PLASTER, CERAMIC, STONE, MARBLE, AND WOOD.

## DIMENSIONS

- 2100 X 330 MM 1 PAD STRIP (50 W/M)

# MORE PAD HVr

Innovative electric and invisible radiant heating system installable on ceiling.

MORE PAD HVr 230V is produced in rolls of 10 or 30 meters, can be cut to size and the laying patterns vary according to project specifications.

**BASE LAYER**  
Application: on any structure thermally insulated and also architecturally non-linear.

**FINISH**  
SUITABLE FOR FINISHES IN PLASTER, RESIN, CERAMIC, STONEWARE, STONE, MARBLE AND WOOD.

MORE PAD HVr  
TEMPERATURE  
40°C

MORE PAD HVr

MORE PAD HVr CEILING INSTALLED

# MORE PAD LVr

Innovative electric and invisible radiant heating system installable on floor, wall or ceiling, even in humid environments.

MORE PAD LVr 36V is produced in rolls of 10 or 30 meters, can be cut to size and the laying patterns vary according to the project specifications.

## MORE PAD LVr FLOOR INSTALLED

### BASE LAYER

Application: on any structure thermally insulated and also architecturally non-linear.

### FINISH

SUITABLE FOR PLASTER, RESIN, CERAMIC, STONEWARE, STONE, MARBLE AND WOOD.

# MONDRIAN COLLECTION

The new collection of wall hangers accessories designed by Piero Lissoni.

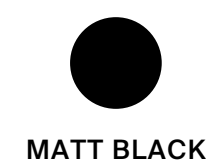

MORE presents the brand new collection of wall accessories designed by Piero Lissoni in combination with MORE PAD HV, the innovative invisible electric radiant bathrobe heater and heating system. The essentiality of the graphic sign defines the sophisticated offers,

studied in every detail, representative of the quintessence of the functional, cleaned of all that is superfluous. Minimalist accessories, perfectly integrated into the architecture to conceal even the smallest of fastenings and eliminate any visually disturbing elements.

03

The Mondrian Collection range includes Mondrian + Mondrian Mini + Mondrian S in the following finishes:

MATT BLACK

FROSTED GOLD

FROSTED STEEL

CHROME PLATED

BURNISHED
